

# **Champion System** Jacket Selection Guide

**Clear Rain Jacket**

Seamless clear rain jacket which is both breathable and wind/water resistant. Designed to be easily folded into a small package in your back pocket. It'll be there when you need it but won't slow you down.

**Wind Guard Jacket**

A lightweight shell jacket designed to take the edge off of cold or wet conditions. Compact enough to roll up into a jersey pocket. When you're not sure what the day will bring, pack your Wind Guard.

**Thermoshield Tech Fleece Jacket**

Our all-rounder go-to jacket for moderate winter conditions combining our CS Tech Fleece with our wind resistant Thermoshield material. The perfect jacket for autumn and winter in warmer climates.

**Thermoshield Winter Jacket**

This jacket is made from our exclusive ThermoShield, wind resistant material lined with a brushed fleece for comfort. A three layer fabric construction provides the absolute best in cold weather protection.

**APEX Winter Shield Pro Jacket**

A proper heavy duty winter jacket. A three layer bonded winter fleece fabric that keeps the rider warm in cold conditions, but is able to breathe. This jacket can handle the coldest conditions.

**Warmer**

**Cooler**
